5. FIRE FIGHTING MEASURES

Suitable	Water, dry chemical, carbon dioxide and foam.
Extinguishing Media	
Hazards from	With heat, product burns/oxidises to form carbon, carbon monoxide and or
Combustion	carbon dioxide, and smoke.
Products	
Specific Hazards	Heating can cause expansion or decomposition leading to violent rupture of containers.
Precautions in connection with Fire	Fire-fighters should wear full protective clothing and self contained breathing apparatus (SCBA) operated in positive pressure mode.

6. ACCIDENTAL RELEASE MEASURES

ISSUED by SUGAR

Product Name : CANE MOLASSES

pH Value	Not available
Vapour Pressure	Not available
Vapour Density (Air=1)	Not available
Evaporation Rate	Not available
Flash Point	Not applicable
Flammability	Will burn if involved in a fire but not considered to be a significant fire risk.
Auto-Ignition	Not available
Temperature	
Flammable Limits -	Not applicable
Lower	
Flammable Limits -	Not applicable
Upper	

10. STABILITY AND REACTIVITY

Chemical Stability	Stable
Conditions to Avoid	Heat, flames and other ignition sources.
Incompatible	Incompatible with oxidising agents (eg. hypochlorites, peroxides).
Materials	
Hazardous	Carbon dioxide and carbon monoxide may form when heated to decomposition.
Decomposition	
Products	
Hazardous	Will not occur.
Polymerization	

11. TOXICOLOGICAL INFORMATION

Toxicology Information	No toxicology data available for this product.
Inhalation	Not likely to cause adverse effects from inhalation.
Ingestion Skin	No health effects when used in trace amounts as food additive. The concentrate should not be consumed undiluted. Ingestion may irritate the gastric tract causing nausea and vomiting. Skin contact may result in mild skin irritation.
Eye	Irritating to the eyes and may cause watering and redness.
Chronic Effects	Repeated skin exposure to this product may result in skin irritation and if persistent, dermatitis which may become infected.
12. ECOLOGICAI	L INFORMATION

EcotoxicityThis product is not anticipated to cause adverse effects to animal or plant
life if released to the environment in small quantities. Molasses is an oxygen
depleting substance in aquatic environments.Persistence /
Degradability
MobilityNot availableEnviron. ProtectionDo not discharge product unmonitored into the environment.

13. DISPOSAL CONSIDERATIONS

Disposal Considerations Product can be treated as a common waste for disposal to an organic recycler or into a landfill site in accordance with relevant Authority guidelines. Note Biochemical Oxygen Demand load of sugar solutions in waste water streams. Return product to supplier for reuse / recycling if possible. Consult supplier for recycling options. Recycle containers if possible, or dispose of in an authorised landfill. Transportation of wet sugar waste may require Waste Transport Certification. Refer to your local Environment Protection Authority.
