Infosafe No™ 8AC30 Issue Date : February 2010 ISSUED by SUGAR

INVERT SYRUP/GOLDEN SYRUP/TREACLE Product Name

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

INVERT SYRUP/GOLDEN SYRUP/TREACLE **Product Name**

Company Name Sugar Australia Pty Limited (ABN 82 081 245 169)

Address 265 Whitehall St Yarraville

> VIC 3013 Australia Tel: +61 3 9283 4558 Fax: +61 3 9689 4085

Number (24 hour a day

Emergency Phone Number: Poisons Information Centre 13 11 26

available)

Telephone/Fax

Recommended Use As a sweetener or ingredient in food processing and food preparation.

Other Names Product Code Name

FRUCTOSE/ GLUCOSE/ SUCROSE SOLUTION IN

GOLDEN SYRUP SQUEEZE AND MANUFACTURER'S

GOLDEN SYRUP

Other Information This Material Safety Data Sheet (MSDS) is issued by the Supplier in accordance

> with the Code and guidelines from the Australian Safety and Compensation Council (ASCC, formerly National Occupational Health and Safety Commission -NOHSC). The information in it must not be altered, deleted or added to. The Supplier will not accept any responsibility for any changes made to its MSDS by any other person or organization. The Supplier will issue a new MSDS when there is a change in ASCC standards, guidelines, or regulations and/or a

material change in product specifications.

2. HAZARDS IDENTIFICATION

NON-HAZARDOUS SUBSTANCE. Hazard

NON-DANGEROUS GOODS. Classification

Hazard classification according to the criteria of NOHSC.

Dangerous goods classification according to the Australia Dangerous Goods

Code.

Other Information This product is a well known ingredient in food and beverages and this

Material Safety Data Sheet is concerned only with occupational exposures.

3. COMPOSITION/INFORMATION ON INGREDIENTS

| Ingredients | Name | CAS | Proportion |
|-------------|----------|-----------|------------|
| | Fructose | 57-48-7 | <35 % |
| | Sucrose | 57-50-1 | <35 % |
| | Glucose | 50-99-7 | <35 % |
| | Water | 7732-18-5 | <30 % |

4. FIRST AID MEASURES

Inhalation Remove to fresh air. Ingestion Give water to drink.

Wash thoroughly with soap and water. Skin

Eve Flush thoroughly with copious amounts of running water. If symptoms persist,

seek medical attention.

Advice to Doctor Treat symptomatically. People with diabetes may need stabilisation.

5. FIRE FIGHTING MEASURES

Water, dry chemical, carbon dioxide and foam. Suitable

Extinguishing Media

With heat, product burns/oxidises to form carbon, carbon monoxide and or Hazards from

carbon dioxide, and smoke. Combustion

Products

Specific Hazards Heating of containers can cause expansion or decomposition leading to rupture.

Print Date: 20/05/2010 CS: 1.4.93

Infosafe No™ 8AC30 Issue Date : February 2010 ISSUED by SUGAR

INVERT SYRUP/GOLDEN SYRUP/TREACLE Product Name

Precautions in connection with Fire

Fire-fighters should wear full protective clothing and self contained breathing apparatus (SCBA) operated in positive pressure mode.

6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures Wear appropriate personal protective equipment and clothing to minimise exposure. Increase ventilation. Wet sweep, vacuum or shovel into suitable labelled containers. Wash area with water ensuring all wash water is captured and discharged to an approved treatment facility. Notify relevant waste or environmental authority as required by the site's EPA licence, trade waste agreement and/or State legislation.

7. HANDLING AND STORAGE

Precautions for Safe Handling

Material can ferment if excessive moisture contamination is allowed. Fermentation can yield carbon dioxide with possible traces of ethanol or volatile fatty acids (e.g. acetic, propionic, lactic, or butyric) and if exposed to a spark or flame may result in an explosion. Fermentation may also occur in dilute surface layers formed by condensation from the headspace above the liquid. These conditions should be avoided. If maintenance of a storage tank requires entry by personnel, confined space precautions should be complied with. Insufficient oxygen may be present in vessels containing the product due to the generation of gases during fermentation.

Keep containers sealed when not in use. Establish good housekeeping practices. Maintain high standards of personal hygiene ie. Washing hands prior to eating,

drinking, smoking or using toilet facilities.

Conditions for Safe Storage

This product should be stored in its factory packaging in a dry area. This product in bulk should be stored in a vented tank designed to contain a material with a specific gravity of 1.45 or greater. Localised microbiological deterioration may start in areas where the liquid becomes diluted. Storage above 40°C can lead to spontaneous decomposition.

No exposure standards have been established for the mixture by the National

Other Information For further information refer to Sugar Australia's 'Liquid Sugar Storage and

Handling in Bulk'

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

National Exposure Standards

Occupational Health & Safety Commission (NOHSC). No Biological limit available.

Biological Limit Values

Engineering Controls

Respiratory **Protection**

General room ventilation should be adequate, but local mechanical ventilation may be required if liquid mists are generated, particularly in confined spaces. Work areas should be cleaned regularly by wet sweeping or vacuuming. An approved particulate respirator conforming to Australian Standards AS/NZS 1715 and AS/NZS 1716 should be worn when working in liquid mists or dusts. Respirators should be correctly fitted, maintained in good condition, and kept in clean storage when not in use. Replaceable filters and cartridges should be replaced regularly in accordance with the manufacturers' guidelines and Australian Standards AS/NZS 1715 and AS/NZS 1716. Use only respirators that bear the Australian Standards mark and are fitted and maintained correctly,

and kept in clean storage when not in use.

Eye Protection

Safety glasses with side shields or chemical goggles should be worn if splashes are likely to occur. Final choice of appropriate eye/face protection will vary according to individual circumstances. Eye protection devices should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for

Industrial Applications.

Hand Protection

Wear gloves of impervious material (such as PVC coated fabric). Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.

Personal Protective **Equipment Body Protection**

If engineering controls and work practices are not effective in controlling exposure, then personal protective equipment may be required.

Skin Protection: Direct skin contact should be avoided by wearing long sleeved shirts and long trousers, a cap or hat, and gloves (PVC coated fabric or

equivalent AS 2161). Work clothes should be washed regularly.

9. PHYSICAL AND CHEMICAL PROPERTIES

Colourless to pale yellow liquid, viscous red liquid or viscous black liquid Appearance

Odour Sweet odour **Melting Point** Not applicable

>105°C **Boiling Point**

Solubility in Water Totally miscible

1.3 -1.4 Specific Gravity

pH Value 5-7 at time of manufacture

Vapour Pressure Not available Not available Vapour Density

(Air=1)

Evaporation Rate Not available Flash Point Not applicable

Flammability Not flammable however, following evaporation of water will burn in fire

condition.

500°C after evaporation of water. **Auto-Ignition**

Temperature

Not applicable Flammable Limits -

Lower

Not applicable Flammable Limits -

Upper

Not applicable Solubility in other

solvents (kg/m3)

10. STABILITY AND REACTIVITY

Chemical Stability

Conditions to Avoid Heat, flames and other ignition sources.

Incompatible Materials

Incompatible with oxidising agents (eg. peroxides).

Hazardous

Carbon dioxide and carbon monoxide may form when heated to decomposition. Ethanol or volatile fatty acids (e.g. acetic, propionic, lactic, or butyric) Decomposition

if fermentation occurs. Products

Will not occur. Hazardous

Polymerization

11. TOXICOLOGICAL INFORMATION

Toxicity Data: Non-toxic - a foodstuff Toxicology

Sucrose: LD50 (Ingestion): 29,700 mg/kg (rat) Information Glucose: LD50 (Ingestion): 25,800 mg/kg (rat)

Inhalation No health effects under normal conditions of industrial use but when aerolised

into liquid mists may cause irritation to nose and throat.

Ingestion No health effects under normal conditions of industrial use, but ingestion may

destabilise people with diabetes.

Skin Skin contact may result in mild skin irritation.

Eye Irritating to the eyes and may cause watering and redness.

Chronic Effects Repeated skin exposure to this product may result in skin irritation and if

persistent, dermatitis which may become infected.

12. ECOLOGICAL INFORMATION

Non-toxic to aquatic and terrestrial organisms. Sucrose is an oxygen depleting **Ecotoxicity**

substance in aquatic environments.

Not available. Persistence /

Degradability

Product Name INVERT SYRUP/GOLDEN SYRUP/TREACLE

Mobility Not available.

Environ. Protection Do not discharge product unmonitored into the environment.

13. DISPOSAL CONSIDERATIONS

Disposal Considerations Product can be treated as a common waste for disposal to an organic recycler or into a landfill site in accordance with relevant Authority guidelines. Note Biochemical Oxygen Demand load of sugar solutions in waste water streams. Return product to supplier for reuse / recycling if possible. Consult supplier for recycling options. Recycle containers if possible, or dispose of in an authorised landfill. Transportation of wet sugar waste may require Waste Transport Certification. Refer to your local Environment Protection Authority.

14. TRANSPORT INFORMATION

Transport Information Not classified as a Dangerous Good, according to the Australian Code for the

Transport of Dangerous Goods by Road and Rail

IMDG Marine

Not a marine pollutant.

Pollutant (MP)

15. REGULATORY INFORMATION

Poisons Schedule

Not Scheduled

AICS (Australia)

All components of this product are listed on the Australian Inventory of Chemical Substances (AICS), or otherwise are in compliance with the NICNAS

requirements.
